Revenue: Privately Held

✓ ARCLIGHT SOLUTION

AFCU struggled with an antiquated human capital management (HCM) system that had limited reporting capabilities, infrequent patch updates, and an outdated user interface.

Arclight was engaged to conduct implement the Oracle HCM Cloud solution, to replace the legacy application

✓ SOLUTION BENEFIT

Since moving to Oracle Cloud, AFCU gained a modern system that is always up-to-date and secure. It has increased operational efficiency and eliminated human error through automated reporting and saved an estimated 60 hours per month from an onboarding perspective. The credit union also has cut benefit administration expenses through automation and reduced the time and effort spent on fixes/patching by 80%.
